Wolfe Pointe Property Owners Association Application for Construction Approval

Please complete the following information and send to the Chairman of the Architectural Review Committee:

Chairman: Sandra Ware or President: Carl Phelps
Phone: 542-0900 (cell) Phone: 410-493-9011
Email: sandra@commercialde.com Email: helocapt@aol.com

Include Two sets of Site and Landscaping plans, floor plans and elevation(s).
Submit one view of each side of the house, fully labeled with sufficient detail and dimensions to scale to show all exterior detail.

Owner is responsible for conformance with all sections of the Wolfe Pointe Restrictive Covenants, Reservations and Remedial Clauses executed May 19, 2000 and filed May 19, 2000.

Owner is required to notify the Architectural Review Committee of any changes in the approved plans and receive approval before the work continues.

Owner/builder shall notify the plan reviewer: Sandra Ware 302-542-0900, when the foundation is staked out (before construction begins) and when floors are sufficiently framed to measure square footage.

Allow thirty (30) days from receipt for initial review of the plans, specifications and information requested below, and an additional two (2) weeks for each change review as necessary. Application fee of \$300 is due and payable when plans are submitted. The \$5,000 builder escrow deposit is due before building can begin.

Please make all checks payable to **Wolfe Pointe POA**.

Wolfe Pointe Architectural Review Committee

Wolfe Pointe Property Owners Association Contractor/Property Owner Responsibilities Form

1. The driveway entrance must be established before any construction may begin. The drain pipe must be a minimum of 12" HDPE or corrugated metal (CNP).
2. It is vital that the construction not change or impair established drainage patterns. The contractor shall verify, quantitatively, that all drainage grades are consistent with Wolfe Pointe construction plans prior to and post construction.
3. Construction may proceed when a dumpster is on site and placed within the building lot perimeter. This is a windy site; BLOWING DEBRIS WILL NOT BE TOLERATED.
4. Construction may proceed when the site has been completely silt fenced. Silt fences must be installed in accordance with manufacturer's recommendations to prevent erosion by wind or water. The erosion barrier (silt fence) shall be placed inside the perimeter of the lot and outside the setbacks so you can build up to the building envelope. Setbacks are: Front 40', Sides 15', Back 20'. A silt fence is used to prevent silt from entering ponds and/or waterways or from moving onto roadways and/or neighboring properties.
5. The contractor must also stake the road side of building lot and string it with a "Do Not Enter" tape to prevent degradation of the roadside swales. Any swale damage will be reported to the Sussex County Erosion & Sediment Control Division for remedying and possible fines. Observe all federal and state regulations relating to the encroachment, maintenance, preservation and construction on and near federal and state wetlands adjacent to Wolfe Pointe.
6. Construction may proceed when contractors and subcontractors present proof of insurance.
7. During construction a Port-O-Let must be on site 7 days a week.
8. Onsite inspections for diligence in adhering to the plans submitted and approved by the Architectural Review Committee will occur. Any deviations will be immediately reported to Wolfe Pointe POA and the property owners for further action.
9. Contractors, employees and subcontractor vehicles are to be parked on the proposed site driveway and adjacent roadways, NOT ON GRASS OR IN SWALES.
10. Maintain safety line/tapes/barricades around open footings and/or basement holes whenever crews are not on site actively working.
11. Comply with time and noise restrictions. Construction work is permitted after 7 AM until dusk. NO WORK ON SUNDAYS.
12. Violations of the covenants and restrictions of the Wolfe Pointe Home Owners Association and Architectural Guidelines are prohibited.
